This will be further distributed to local schools as a material depicting views and positions of young people here in Prešov, where possibilities for growth and success are rather difficult. We want to show PMJ as an example of how you can by doing a quality work grow from your livingroom to large stages around the world.

- There will be a small questionnaire for all spectators asking them to fill out their feedback on the concert. The goal is to help us understand the impact the concert had on local people, map where the spectators come from, and other topics in order to conduct similar shows in the future.

- For the purpose of project activities, we would kindly ask PMJ members to be with us for at least 2 hours. We will make sure, it will be fun for them as well.
